

WYLAND CELLARS

The Art of Wine

One of the most prolific and celebrated artists of our time and hailed a "Marine Michaelangelo" by USA Today, Wyland has captured the attention of the world with his spectacular marine life paintings and landmark Whaling Wall murals. With millions of collectors in over 100 countries, he has done more than any other artist to raise awareness of the beauty of life of our blue planet.

Continuing on with his creative vision, Wyland Cellars launches a venture expressing synergy between his fine art and fine wine. Wyland Cellars brings you a portfolio of premium wines embellished with his breathtaking trademark artwork. In order to create this work of art Wyland Cellars has made an art of blending different vintages with different vineyards. Premium grapes are selected from high quality growers along the North Coast region of California to ensure taste, quality and flavor.

Wyland brands have been marketed worldwide for over 30 years with tremendous success.

A portion of Wyland wine sales go to the Wyland Foundation supporting clean waters, the environment, and the protection of sea life.

WYLAND 2002

Doing our part for the environment At Wyland Cellars, drinking responsibility also means living responsibility. We are committed to increasing our use of organically grown grapes, recycled labeling and using soy-based inks for printing. Please recycle your empty bottles.
